## Windmaster10 Cantilever

The elegant & modern Grosfillex Windmaster10 allows you to maximize your space with its innovative extruded aluminum side mast. Manufactured using the most durable materials and fabric, the Windmaster10 will provide many years of trouble-free use and enjoyment.

Its Infinity Tilt allows you to change positions effortlessly and provides hours of maximum shade regardless of the position of the sun. This modern cantilever is suitable for use in low to moderate wind conditions-up to 40 mph.

Windmaster10 fabric has an outer surface finish enhanced by an Infinity Process – a treatment that ensures the lasting quality of the fabric and superior waterproofing. It is easy to clean, resistant to mold and mildew, won't sag or stretch over time (like lighter weight fabric will), and has an exceptional guarantee against fading.

### Why choose the Windmaster10 Cantilever?

1. Made of extruded aluminum for years of worry-free use. Wind stabilizer bar engineered and tested to withstand 40 MPH sustained winds.
2. Infinity tilt allows effortless position changes and countless tilt angles (use with caution in high winds).
3. Easy-to-operate crank mechanism for opening and closing.
4. Canopy made with Recacril® Marine Grade Acrylic Fabric. The vent prevents wind from getting trapped and allows air to escape.
5. Comes with matching cover to keep it protected during downtime. Cover includes “easy-on” pole to help reach the top of the umbrella and slide cover on.
6. Free-standing cross base (sold separately) is designed to accept readily available 16”x16” concrete pavers for ballast. The cross base features a low-profile and requires (8) pavers-320 lbs. (not included with base).  
Ref #: US606017
7. Includes 3-year warranty on frame and 5-year warranty on fabric.

Canopy - 10'x10' Square  
Mast Height - 9.25'  
Assembled Crossbase - 39"x39"  
Total Area Needed-  
Height 10' x Depth 12' x Width 10'

Our fabric is Recacril® Marine Grade Acrylic Fabric, a highly technological finish that provides long lasting protection against mold and mildew, excellent water and oil repellency and protection from both sun and water.

Fabric Color Options

Black - Ref #: 98701731

Linen - Ref #: 98758131

Charcoal Gray - Ref #: 98700231

Forest Green - Ref #: 98702031

A large, light-colored cantilever patio umbrella is the central focus, mounted on a dark metal pole. The umbrella is open and casts a shadow on the balcony floor. The balcony is furnished with three square tables and twelve light-colored plastic chairs with a lattice back design. In the background, a rustic building with a stone base and weathered wood upper section is visible, surrounded by dense green trees. The scene is set on a sunny day with shadows cast on the balcony floor.
